Re: Health Plan Changes for July 1, 2017

Dear MEMBER NAME

In compliance with the requirements of federal health care reform, enclosed are your health plan Summary of Benefits Coverage (SBC) documents addressing plan changes effective July 1, 2017.

The information contained in the SBC is presented in a format provided in the federal Affordable Care Act guidelines and is intended to provide you with a standardized tool to use in comparing various health plans.

As a quick reference we have included the University's plan comparison grid document along with the SBC for your review.

In summary there are three positive plan changes for July.

- **3D imaging/mammography** will be added as a covered service.
- Member responsibility for In-Network **Coinsurance** payments will be reduced from 30% down to 25%.
- Member responsibility for **Deductible** payments on laboratory services and laboratory testing will end. The office visit copayments and coinsurance will continue, but deductible payments will no longer apply for lab services and lab testing.

Please carefully review the enclosed information as well as additional health plan and other benefits information you will receive from your Human Resources Office.
